## March 2018

Spring is in the air! During the month of March, the children will be learning all about Dinosaurs and the animals that are associated with Spring time. On March 2nd, the children will be celebrating Dr. Seuss's birthday by reading books or doing a special craft.

We also would like to extend a big THANK YOU to all of our parents who presented their family's heritage during the month of February for our cultural awareness theme. The visits sparked many conversations with the children!
